

## TECHNICAL BULLETIN #103

# PLATE CARE AS A REPLACEMENT FOR AGFA FPC

Burnishine Plate Care is the perfect replacement for Agfa's discontinued FPC KLAFD00, and offers some big advantages over Antura CleanGum. Plate Care can be used on all metal plates - including CtP.

<u>FEATURES</u>	<u>BENEFITS</u>
Lower VOC Content 12% vs. 37.6%	Better for printers and the environment.
Preserves plates up to year vs. 1 week	Saves time and money!
Designated "warning" label vs. "danger" label	Safer to ship and store.

**DIRECTIONS:** **Shake well!** Apply evenly over entire plate. Reapply if necessary to remove ink. Buff dry and store plates.
