

Technical Bulletin #123

LP6000 LASER PLATE DELETION PEN

Burnishine worked closely with a laser plate distributor to develop a pen that works with most popular polyester laser plates. **LP6000 Deletion Pen** effectively removes unwanted images, and can save you time and money by eliminating the need to remake plates. It is made with the same high quality components as our other deletion pens.

FEATURES

- Single tip
- Works with most polyester laser plates
- High quality barrels, end caps and tips.

BENEFITS

- Economical and easy to use.
- Saves money – no need to remake plates. Easily removes unwanted images.
- Pens last longer and are more durable than other pens on the market.

DIRECTIONS: Rub lightly to area to be deleted. Wipe off with a damp cloth. Repeat as necessary. Keep cap on when not in use.
