BURNISHINE® PRODUCTS

ADVANCED PRODUCTS FOR THE PRINTING INDUSTRY
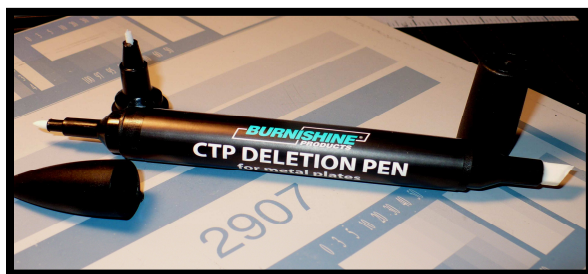

Deletion & Addition Pen for metal plates

Burnishine pens are unique! Each pen has 3 tips which allows printers greater control when making corrections, and eliminates the need to stock more than one pen.   Our pens have every tip a printer would ever need!   And they work with most analog and CtP metal plates.   Printers save money because our pens last longer and are more durable than others on the market.

CtP Deletion Pen #CTP 1000 Features:

- ♦ **3 correction tips—fine, medium and broad for extra control**

- ♦ **Works with most metal plates, including CtP**

- ♦ **High quality barrel construction**

- ♦ **Sealed end caps**

- ♦ **Durable tips last longer than other pens**

CtP Addition Pen #CTP 2000 Features:

- ♦ **Long run addition pen has 3 tips**

- ♦ **One prep tip desensitizes plate surface and allows addition fluid to adhere properly**

- ♦ **Two correction tips—one fine point and one medium point**

- ♦ **Extends plate life and can eliminate need to make new plates.**
