H.S. Boyd is the leading manufacturer of Perfing, Scoring and die cutting materials. Their precision-made products allow printers to keep control of their jobs by completing finishing tasks in-house, in-line and on-time. In addition to regularly stocked items, H.S. Boyd offers custom-made products to suit every printers' needs. Choose from the following popular products, or call for special applications.

Micro-Perf—side and center series in 10' and 20' rolls

- ◆ Available in 30, 40 and 50 tooth rules
- ◆ Ideal for perfing continuous feed forms
- ◆ No stray fibers or rough edges

Litho-Perf—side and center series in 10' and 20' rolls

- ◆ Is the industry standard for reliable, high-quality performance
- ◆ Available in a variety of weights for different applications
- ◆ Choose lower rules for lighter weight stocks; higher rules for heavier stocks.

Litho Score - side and center series in 10' and 20' rolls

- ◆ Designed for offset presses
- ◆ Consistent register with printed copy and prepares stock for neater fold
- ◆ For card and paper stocks—ideal for newsletters, folders, thank you cards, announcements, etc.

Litho-Slit—side and center series in 10' and 20' rolls.

- ◆ For card or paper stock
- ◆ Effective for slitting, straight-line die-cutting and insertion slots in presentation folders.
