

H.S. BOYD

Litho Dies / Punches / Speciality

Boyd Litho –Punches create a circular cut that is lightly attached and ready for easy removal by the end user. They are ideal for promotional pieces such as binder inserts and are available in a variety of standard and custom made diameter sizes.

Litho-Dies are designed for die-cutting on offset presses so there is no need to buy pre-cut blanks. All Litho-Dies are mounted on shimstock for ease of attachment and are heat-treated for durability.

Boyd's specialty products include Sabertooth perforation backing in two widths, and Sleeveguard.

Litho-Punch Features/Benefits:
