

Burnishine Hand Sanitizer

Perfect for home or offices

Burnishine Hand Sanitizer is an effective, easy to use hand sanitizer that meets or exceeds CDC guidelines. The active ingredient, Ethanol, inactivates certain viruses and germs, and is considered an important part of hand hygiene. Regular use can help prevent the spread of harmful pathogens.

FEATURES/BENEFITS:

- ◆ Contains 63-68% Ethanol (CDC recommends 60%)
- ◆ Effective at inactivating certain viruses and germs
- ◆ Use often to help prevent the spread of viruses and germs, and whenever soap and water is not available
- ◆ Available in pints, quarts and gallons
- ◆ Made in the USA

DIRECTIONS: Apply a small amount to hands. Rub into skin, and allow to dry. Use as often as needed, especially when soap and water is not available.
