

# PRO 3 SM Fountain Solution

## For Silver, Metal, and Laser Plates

Like Pro 3, Pro 3 SM is specially blended, balanced, and buffered to make press operators' jobs easier. It contains added wetting agents to keep plates running cleaner and is especially helpful in hot, dry climates.

### BENEFITS:

- ♦ Compatible with most plates and inks.
- ♦ Works well with most presses and dampeners.
- ♦ Needs no special handling or additives.
- ♦ Contains special wetting agents to keep running cleaner
- ♦ Economical.
- ♦ Dilute 1:7 to 1:10 with preferably distilled water.

**DIRECTIONS:** Mix 1:7 to 1:10 with water. Diluted solution can be used as a plate etch.
