

PRO 3 Fountain Solution

For Silver, Metal, and Laser Plates

Pro 3 is well-known as one of the original universal pink fountain solutions in the printing industry. It was specially blended, balanced, and buffered to make press operators' jobs easier.

BENEFITS:

- ♦ Compatible with most plates and inks.
- ♦ Works well with most presses and dampeners.
- ♦ Needs no special handling or additives.
- ♦ Contains alcohol.
- ♦ Economical.
- ♦ Dilute 1:7 to 1:10 with preferably distilled water.

DIRECTIONS: Mix 1:7 to 1:10 with water. Diluted solution can be used as a plate etch.
