PLATE CARE

FINISHER, CLEANER, PRESERVER

FOR ALL METAL PLATES

Plate Care is a one-step cleaner and preserver for any metal lithographic plate...including **CTP, Thermal and Violet plates!** **Plate Care** thoroughly cleans and finishes the plate surface, protects the plate from oxidation during storage, and may be used to clean plates on the press. Removing **Plate Care** is simple — just wipe the plate with a damp sponge or soft cloth!

BENEFITS:

- ◆ Provides superior protection against oxidation
- ◆ Effective on all metal plates—including CTP, Thermal and Violet
- ◆ Excellent storage solution—saves plates up to a year when properly stored.

DIRECTIONS: SHAKE WELL BEFORE USING! Apply a sufficient amount of **Plate Care** with a cotton pad, cheesecloth, or damp sponge and spread evenly over entire plate. Reapply if necessary. Buff dry and store.
