

Flexo Plate Wipes

Highly Absorbent, Synthetic Low Lint Wipes for Flexo Plates and Equipment

Flexo Plate Wipes are a highly absorbent, gentle, low-lint wiping pad. They are perfect for cleaning photopolymer and rubber flexographic plates and equipment. They are made using a non-scratch material that will not damage flexo plates or equipment. These wipes saves time — No more folding, stuffing or cutting materials!

BENEFITS:

- ◆ Highly absorbent! Can absorb up to 10 times its weight in ink and fluids!
 - ◆ Low-lint— made with single extruded 100% rayon instead of cotton fibers
 - ◆ Non-scratch—safe for photopolymer and rubber flexo plates and equipment
 - ◆ Saves time and labor —no need to cut up materials for make-shift pads
 - ◆ 4" x 5" - 144 per case
 - ◆ Economically priced! Performs as good as or better than leading Flexo wipes.
 - ◆ Made in the USA
-
